REMINDER ABOUT THE CITY STORM WATER DRAINAGE SYSTEM

Stormwater drainage is the process of draining excess water from streets, sidewalks, roofs, buildings, and other areas. The stormwater drainage system is a network of structures, channels and underground pipes that carry storm water to ponds, lakes, streams and rivers. Stormwater drainage systems are often referred to as storm drains, but they are also called storm sewers and drainage wells.

No person shall release or cause to be released into the storm drainage system any discharge that is not composed of entirely uncontaminated stormwater. Common stormwater contaminants include trash, yard waste (including grass clippings), lawn chemicals, pet waste, wastewater, oil, petroleum products, cleaning products, paint products, hazardous waste and sediment.

Any contaminant released into the storm drainage system will eventually make its way to area ponds, lakes, streams and rivers.

THE HERCULANEUM FIRE DEPARTMENT REMINDS RESIDENTS TO PRACTICE SAFETY WHEN USING CONSUMER FIREWORKS

As the Fourth of July approaches, the Herculaneum Fire Department reminds residents of the following safety guidelines when using consumer fireworks.

- Never use or make professional-grade fireworks
- Never allow young children to play with or ignite fireworks, including sparklers. Sparklers burn at temperatures of about 2,000 degrees Fahrenheit. This is hot enough to melt some metals.
- Never place any part of your body directly over a fireworks device when lighting the fuse. Move to a safe distance immediately after lighting fireworks.
- Never point or throw fireworks at another person or occupied area.
- Light fireworks one at a time, then move away from them quickly.
- Keep a bucket of water or a garden hose handy, in case of fire or other mishap.
- Never try to relight or handle malfunctioning fireworks. Soak them with water and throw them away.

After fireworks complete their burning, douse the spent device with plenty of water from a bucket or hose before discarding the device, to prevent a trash fire.
